

Upcoming changes on the Participant Portal

Upcoming changes: General changes

- New identity and access management allowing for more flexible management of the roles
- List of proposals for LEARs
- “FP7 Documents” tab:
 - It will provide the same documents that are available on CORDIS, allowing the users to find all the relevant information in one place
 - A new search tool for the documents section

Upcoming changes: Expert Services

The Expert Services:

- First phase:
 - Expert registration will be available in the Participant Portal (*before end 2011*). Full transfer of the EMM database currently available on CORDIS.
 - Inviting all experts to update/complete their profiles to better describe their expertise.
- Second phase:
 - It will provide a full management of the expert profiles from registration and update of profile data to the management of payments.

Upcoming changes: Organisation registration

The new “Organisation Registration” tool will allow...

- ...new registrants to obtain the role “**self-registrant**” allowing an easier access to the accounts;
- ...an initial search of the database for existing data before the finalisation of any new registration, thus helping to avoid the creation of unnecessary new accounts;
- ...LEARs to be contacted anonymously in the future;
- It will feature improved functionalities, layout and information.

Upcoming changes: Proposal Submission

- First “real” call (pilot call) ongoing
(*FP7-2012-NMP-ENV-ENERGY-ICT-EeB*)
- New calls will come in the new submission system next year.
- Check specific call documents for any information related to the use of the new submission system.
