Activity:	7.2. Bilateral coordination for the enhancement and development of S&T Partnerships
Area:	7.2.1 Area 1: Canada, India, Japan, Republic of Korea
Topics:	
Funding Scheme:	Coordination and Support Action (supporting action)
Call Budget:	8,0 Mio. €
Particular Requirements:	The consortium must include at least one participant from the targeted country (additional eligibility criterion; Canada, India, Japan, Republic of Korea). It is considered essential that the main third country participants be either public authorities responsible for the follow-up of the S&T cooperation agreement or any organisation, which has received the necessary mandate from the national authorities. The funding of participants from industrialised countries would be allowed for this activity if it is considered essential for the success of the action. The participation of public authorities, national agencies and research organisations from Member States and/or Associated countries is encouraged. The participation of industry and SMEs associations from Member States and/or Associated countries and the targeted country is also encouraged. The action should set up an advisory board that will be composed of representatives of authorities responsible for the S&T agreement and, where appropriate, of high level experts originating from the Member States and/or Associated countries and the targeted third country.

FFG/EIP Weblink: <http://rp7.ffg.at/fp7-sme-2013>

Activity: 2.1 Research for SMEs

Area:

Topics:

Funding Scheme: Research for the benefit of specific groups (in particular SMEs)

Call Budget: 252,31 Mio. €

Particular Requirements: Although international cooperation is not the main aim of this programme, it can play a role. SMEs can outsource work to RTD performers from any country, including third countries, if these have the right expertise and the research activity provided is cost-effective. This may also be helpful to SMEs to expand their markets. In addition, information and good practices based on the European experience in relation to SMEs and research can be disseminated to third countries in order to enable them to create the necessary structures and support mechanisms for the creation of viable and effective SME support activities.
