FFG/EIP Weblink: <http://rp7.ffg.at/fp7-kbbe-2013-7>
Activity: 2.1 Sustainable production and management of biological resources from land, forest and aquatic environments
Area: 2.1.1 Enabling research
Topics: 2.1.1-01: Development and exploitation of genomic data and tools, phenotyping approaches and breeding concepts to sustainable animal production systems
Funding Scheme: Collaborative Project (large-scale integrating project targeted to SMEs)
Call Budget: 341,35 Mio. €
Particular Requirements: The active participation of relevant partners from United States should add to the scientific excellence of the project and lead to an increased impact of the research; this will be considered by the evaluators.

Activity: 2.1 Sustainable production and management of biological resources from land, forest and aquatic environments
Area: 2.1.2 Increased sustainability of all production systems (agriculture, forestry, fisheries and aquaculture); plant health and crop protection
Topics: 2.1.2-08: Innovative insights and tools to integrate the ecosystem-based approach into fisheries advice
Funding Scheme: Collaborative Project (large-scale integrating project targeted to SMEs)
Call Budget: 341,35 Mio. €
Particular Requirements: Participation of relevant partners from Australia, Canada and New Zealand will add to the scientific and/or technological excellence of the project and ensure effective uptake of ongoing international efforts for the implementation of the ecosystem-based approach to fisheries management.

Activity: 2.1 Sustainable production and management of biological resources from land, forest and aquatic environments

Area: 2.1.3 Optimised animal health, production and welfare across agriculture, fisheries and aquaculture

Topics: 2.1.3-04: Coordination of research between EU and China on major infectious diseases of animals and zoonoses

Funding Scheme: Coordination and Support action (coordinating action)

Call Budget: 341,35 Mio. €

Particular Requirements: An intensive co-ordination of research activities from the EU and China in the field of animal disease will improve scientific collaborations for the benefit of food safety and food security. The scope of this co-ordinated action is to link the research activities carried out on the one side by the European research programmes (EU Framework Programmes and EU Member States' national programmes including those involving international partners) and, on the other, by related research programmes coordinated by China national institutions, e.g. Chinese Academy of Agricultural Sciences (CAAS). The areas targeted would focus on major viral diseases affecting poultry, pigs and cattle. The project will ensure a wide-range networking of the relevant scientific communities and stakeholders and the systematic establishment of linkages between the ongoing research and innovation projects from the EU and China. Additional information: The China Academy of Agricultural Sciences (CAAS) intends to support or/and carry out mirroring and complementary actions. The systematic cooperation with these complementary activities should be reflected in the proposal. This will be considered in the evaluation of the proposal. Expected impact: A wide co-ordination of research activities in this area from the EU and China, which are both major players in these fields, will scale-up EU-China collaboration, in line with the EU-China Science and Technology (S&T) co-operation agreement. The project will ensure a wide-range networking of the relevant scientific communities and stakeholders and the systematic establishment of linkages between on-going animal health research, training programmes and innovation projects in the veterinary field from the EU and China.

Activity: 2.1 Sustainable production and management of biological resources from land, forest and aquatic environments
Area: 2.1.4 Socio-economic research and support to policies
Topics: 2.1.4-09: Improving the capacity of agro-meteorological crop modelling to integrate climatic variability and extreme weather events
Funding Scheme: Collaborative Project (small or medium-scale focused research project)
Call Budget: 341,35 Mio. €
Particular Requirements: Given the importance of the subject and the variety of types of extreme events, it is expected that this project will involve several research communities outside the EU.
