

Dear all,

One of the FP7 projects launched on April 2009 is the NMP TeAm one, a project aimed to improve the services that the NCP network can offer across Europe and to raise the awareness of the benefits of the projects offered by the EC, to simplify the access to FP7 calls, to lower the entry barriers for newcomers and, last but not least, raise the quality of submitted proposals.

One of the main objectives of this project is to organize brokerage events, seen as "partnership building". A brokerage event is **THE** opportunity to meet potential partners, to develop future collaboration and to set up research projects as well as a very sure way to establish technological partnerships and contacts with relevant companies and research institutes and to promote your own products, services and expertise. It is also a way to get first hand information from experts.

In this context, **we are very pleased to invite you to the "Meet – Initiate - Develop" Brokerage Event** that will take place in Bucharest, Romania on the 6th of July at Howard Johnson Grand Plaza Hotel (<http://www.hojoplaza.ro/en>).

In order for the brokerage to be effective and useful and to fully use its potential, we are sending you the FP7 NMP 2011 Call topics list.

For those of you interested to present your own project idea at the brokerage event, we also send the template for the presentation. Please use it and return it to **letitia.stanila@ancs.ro latest June 15th**.

Attached you will also find the registration form and practical information.

We very much appreciate your interest and your contribution and we look forward to hearing from you.

Best regards,

Letitia Clara Stanila
National Authority for Scientific Research
21-25 Mendeleev Street, 010362 Bucharest

The NMP TeAm project has received funding from the European Community's Seventh Framework Programme FP7 (2007-2013), Theme 4: Nanosciences, nanotechnologies, Materials & new Production technologies (NMP), under grant agreement no NMP1-CA-2009-233160
