# Contents

- **Objectives of the Research Infrastructure programme**
- **Overview on RI's in FP7 2007 - 2012**
- **FP7 call 3: support of existing research infrastructures**
  - ➔ **Policy development and programme implementation**
  - ➔ **Integrating Activities**
    - **Project type**
    - **Topics**
    - **What is expected?**
  - ➔ **Call outline**
  - ➔ **Evaluation**

EUROPEAN  
COMMISSION

Community research

# The Community Research Infrastructures action

- **“Research infrastructures”** refers to facilities, resources and related services used by the scientific community for leading edge research
  - Major scientific equipment
  - Scientific collections, archives and structured information
  - Entities (of unique nature) used for research
  - ICT-based infrastructures
  - Can be single-sited, distributed, virtual

EUROPEAN  
COMMISSION

Community research

# Objectives of the Community Research Infrastructures action

- **Optimising the use and development of the best **existing research infrastructures** in Europe**
- **Helping to create in all fields of S & T **new research infrastructures** of pan-European interest needed by the European scientific community**
- **Supporting **programme implementation** and **policy development** (e.g. international cooperation)**

<b>Total per call (M€)</b>	<b>228</b>	<b>64</b>	<b>286</b>	<b>113</b>			

EUROPEAN  
COMMISSION

Community research

## Call 3: Objectives of an Integrating Activity project

**Structure better and integrate, on a European scale, the way research infrastructures operate and develop, **in a given class:****

- **By opening and optimising the **access to** and the **use** of the existing research infrastructures in the different Member States and Associated States**
- **By better structuring and **integrating**, on a European scale, the operation(s) of research infrastructures, and by fostering their **joint development** (qualitative and quantitative)**

EUROPEAN  
COMMISSION

Community research

# Integrating Activity in FP7

- Collaboration of **existing research infrastructures** in a given field of science
  - Normally all major RI's in Europe in one field
  - At least 3 MS or AS
- 3 types of **activities obligatory** in one project
  - **Networking Activities**
  - **Trans-national Access, service activities**
  - **Joint Research Activities**
- Project type: *combination of* collaborative project + coordination and support actions
- Based on the continuation of the successful FP6 instrument "**I3**"

# (1) Networking Activities

- To foster a culture of **co-operation** between the research infrastructures and the related scientific communities
- **Forms of activities:**
  - Towards a common long-term **strategy**: foresight...
  - Towards **good practice**: exchange of personnel and visits, standards and quality...
  - Towards **the users**: training, feedback, coordination...
  - Towards **virtual research communities**: Web-sites, common software, databases, data management...
  - **Technical workshops**, forums, working groups and studies...

EUROPEAN  
COMMISSION

Community research

## (2) Trans-national Access and/or Service activities (1)

- Provide **trans-national access** to researchers or research teams to one or more infrastructures among those operated by the participants
  - "Hands on" access
  - **Remote** access: provision of reference material, sample analysis...
- Provide **research infrastructures related services** to the scientific community
  - Access to scientific services freely available **through communication networks**, e.g. databases available on the web

## (2) Trans-national Access and/or Service activities ctnd.

- Specific provisions for **trans-national access** activities are defined in **Annex III** to the Grant Agreement
  - **Access costs = unit cost x** quantity of access provided
  - **An estimated** unit cost will be specified in Annex I
  - EC financial contribution will be adjusted in the final financial statement (Form C) based on **real UC** (will not exceed 20% of costs of providing total access to the installation over the duration of the project)
- Specific provision for **access to services** freely available through communication networks are defined in **Special Clause 17**
  - EC financial contribution for **access costs** will not exceed 20% of operating costs incurred

EUROPEAN  
COMMISSION

Community research

## (3) Joint Research Activities

- **Explore new fundamental technologies or techniques underpinning the efficient and joint use of the participating research infrastructures**  
*To improve the services provided by the infrastructures (in quality and/or quantity)*
- **Forms of activities:**
  - **Instrumentation / prototype development**
  - **Development of methods, protocols, standards...**
  - **Development of software, middleware, algorithm; Database creation, upgrade, curation...**
  - **Development and curation of samples**

EUROPEAN  
COMMISSION

Community research

# New approach for Integrating Activities in FP7

- **Bottom up approach** for all fields of science (as in FP6)
- **New: targeted approach** to respond to identified strategic needs:
  - creating synergies and ensuring consistency with other parts of the Framework Programme,
  - in important fields currently not well covered,
  - **Pilot exercise under FP7**

EUROPEAN  
COMMISSION

Community research

# Priority topics for RI's under the targeted approach

- **Health (6)**
  - **Food, Agriculture and Biotechnology (4)**
  - **Information and Communication Technologies (3)**
  - **Nanosciences, Nanotechnologies and Materials (2)**
  - **Energy (5)**
  - **Environment (4)**
  - **Transport (2)**
  - **Socio-economic Sciences and Humanities (3)**
- **29 priority topics for RI's in 8 fields of R&D**
- **No competition under the same topic but integration on a European scale**

EUROPEAN  
COMMISSION

Community research

# Expected size of an Integrating Activity under FP7

- **Duration: 4 years max**
- **EC contribution:**
  - *Expected to be in the range of 3 to 10 M€.  
Higher contribution only in well justified cases,  
not foreseen to be more than 15 M€*
- **Number of contractors:**
  - *Experience shows that a project with more than 20 contractors is difficult to manage - management issue for larger projects*
  - *Not all partners need to be contractors*

EUROPEAN  
COMMISSION

Community research

## Expected size of an Integrating Activity under FP7 ctnd.

- **What should be the normal balance of activities?**
  - **Management 5-10%**
  - **Networking activities 15 to 20%**
  - **TA/service activities 25 to 35%**
  - **Joint research activities 35 to 45%**

**No fixed rule, <one size does not fit all>**

EUROPEAN  
COMMISSION

Community research

# Support for policy development and programme implementation

- **Two main subjects for 2008:**
  - **ERA-NETs for research infrastructures**
  - **Studies, conferences and coordination actions for policy development, including international cooperation, in particular:**
    - **Studies on the regional impact of research infrastructures**
    - **Impact studies referring to the ERA green paper**

**Indicative budget in total 9 M€**

## Financial issues in FP7

- **New terminology:** Grant Agreement, Beneficiary, Funding Scheme, Certificate on Financial Statement(CFS)
- **No CFS for beneficiaries below EURO 375.000** (exception for TA -> CFS at end of project)
- **New rules for direct costs:** all beneficiaries report their real direct costs, upper funding limit of 50%/75% for RTD
  - And 100% for Coordination and Support Actions
- **New rules for TA: actual costs**
- **Indirect costs – no cost reporting models**
  - For CSA limited to 7%
  - For RTD actual overhead or simplified method or flat rate(20% or 60%)

EUROPEAN  
COMMISSION

Community research

## FP7 Call 3 outline (1)

- For **Integrating Activities** and **Support to policy development and programme implementation**
- **Publication: 30 November 2007**
- **Closure: 29 February 2008**
- **Indicative budget for Integrating Activities: 84.5 M€ (+ 192 M€ from the 2009 budget)**
  - For both **bottom up** and **targeted approach**
- **Indicative budget for Policy dev<sup>t</sup>: 9 M€**
- **Results within 4 months after closure date**
- **First contracts will come into force before the end of 2008**

EUROPEAN  
COMMISSION

Community research

## FP7 Call 3 outline (2)

- **Procedure for evaluation**
    - remote + panel evaluation
  - **1 Panel organised in 5 thematic sub-panels\***
    - Math., computer related sciences, analytical facilities
    - Physics, astronomy, nuclear & particle physics
    - Biomedical and life sciences
    - Environmental sciences and non-nuclear energy
    - Social sciences and humanities
- \* Computer and data treatment experts in each sub-panel*
- **2 priority lists** (I3 and support measures)

EUROPEAN  
COMMISSION

Community research

# Evaluation Criteria

- **All FP7 proposals will be assessed according to 3 criteria:**
  - **S/T quality** (threshold 3/5)
  - **Implementation** (threshold 3/5)
  - **Impact** (threshold 3/5)
- **Overall threshold 10/15**
- **Those criteria will be further specified in the revised workprogramme and in the respective guides for applicants**

EUROPEAN  
COMMISSION

Community research
